

EME 144 MHz : TD9FYC, DXCC

#143

En février/mars 2018, Chris PA2CHR et Jos PA3FYC ont activé le Guatemala au travers d'une DX-pédition tribande (144-432-1296), depuis le carré locator EK44SB. J'ai eu la chance de contacter assez facilement **TD9FYC** (toujours en total "random", c'est-à-dire sans notification de mon appel sur un logger/chat). Merci Chris et Jos pour ce nouveau DXCC (143 ème) sur 144 MHz !

In February/March 2018, Chris PA2CHR and Jos PA3FYC have been activating Guatemala in a triband (144-432-1296) DX-pedition, as from the grid square EK44SB. I have had the chance to work **TD9FYC** somehow easily (always in total "random", i.e. without notification of my call on a logger/chat). Thanks Chris and Jos for this new DXCC (143th) on 144 MHz !
