My QTH

This post describes my geographical location. Take-off is of prime importante what radio communications matters, especially on the higher frequencies.

The following maps (made thanks to "Radio Mobile" by Roger, VE2DBE) are all centered on my QTH :

View as from the 144 MHz antenna (17m above gr. level) towards the main cardinal

points :

Few pictures of my village (Horrues) in summer :

And in winter :
