IARU Region 1 VHF Contest 2016

Compte rendu du contest IARU VHF des 3 et 4 septembre 2016. J'ai été actif durant 17 heures sur les 24 que compte le contest. Propagation tropo. très standard, pas d'ouverture particulière. Par contre, une courte aurore boréale m'a permis de contacter Clive, GM4VVX, comme meilleur DX. Côté tropo, le meilleur DX fût TK/F1NSR en JN42QX ; écoutez ci-dessous (enregistrement audio) le signal de Yannick (qui avait des problèmes de commutation ;o).
Merci à tous ceux qui m'ont appelé !
Station habituelle : 12 él. DK7ZB et 550W

Activity report of the IARU VHF contest of July 3rd and 4th, 2016. I have been active during 17 hours amongst the 24 hours the contests lasts. Tropo. propagation very standard, no special opening. However, a short aurora opening allowed me to work Clive, GM4VVX, as best DX. On the tropo side, the best DX was TK/F1NSR in JN42QX ; listen hereunder (audio recording) to the signal of Yannick (who had switching problems ;o).
Thanks to everyone who called me !

IARU Region 1 VHF Contest 2015

Bref compte rendu du contest VHF IARU Region 1 des 5 et 6 septembre 2015. J'ai été actif en single op. durant toute la durée du contest, nuit comprise. Que celle-ci fût laborieuse (seulement 30 QSO), tant la propagation était mauvaise (30 QSO et 16000 points de moins qu'en 2014) et l'activité faible entre 2h et 6h du matin…
Merci à tous ceux qui m'ont appelé !

Short report of activity in the IARU Region 1 VHF contest of September 5th and 6th, 2015. I have been active single op. the whole duration of the contest, night included. What a hard night it was (only 30 QSO), since the propagation was very poor (30 QSO and 16000 points less compared to 2014) and the activity low between 2h and 6h in the morning…
