

# Subregional VHF Contest July/Juillet 2016

Compte rendu du contest VHF subrégional des 2 et 3 juillet 2016. J'ai été actif seulement durant une partie du contest (environ 10h). Propagation assez bonne le samedi (moyenne/km largement plus élevée qu'en mai, stations italiennes avec de bons signaux et 14 QSO's > 800 km) et taux de participation relativement correct (beaucoup de stations anglaises).

Merci à tous ceux qui m'ont appelé, bien que davantage actif en S&P cette fois !  
Station habituelle : 12 él. DK7ZB et 550W

Activity report of the subregional VHF contest of July 2nd and 3rd, 2016. I have been active only during a part of the contest (around 10h). Somehow good propagation on the Saturday (average/km much higher than in May, Italian stations with good signals and 14 QSO's > 800 km) and participation rate relatively correct (many English stations).

Thanks to everyone who called me, though more active in S&P this time !

Usual station : 12 el. DK7ZB and 550W

# QSO's : 170

Points : 75491

# DXCC : 15 (G, GW, F, I, LX, SP, HB9, OE, OK, OZ, DL, ON, PA, EA, EI)

# WWL : 70

Average km/QSO : 444,1

Top 10 DX QSO's :

EB1RL/P	IN83FD	1005 km
EA2T0	IN93IA	932 km
F6FZS/P	IN930A	917 km

# Subregional VHF Contest

# May/Mai 2016

Court compte rendu du contest VHF subrégional des 7 et 8 mai 2016. J'ai été actif en single op. et seulement durant une partie du contest (environ 10h30). Les conditions de propagation et de participation étaient juste normales ; il semble toutefois que moins de stations OK soient actives.

Merci à tous ceux qui m'ont appelé !

Station habituelle : 12 él. DK7ZB et 550W

Short report of activity in the subregional VHF contest of May 7th and 8th, 2016. I have been active in single op. and only during a part of the contest (around 10h30). The propagation and participation conditions were just normal ; it seems however that less OK stations are active.

Thanks to everyone who called me !

Usual station : 12 el. DK7ZB and 550W

# QSO's : 200

Points : 77638

# DXCC : 12 (G, F, I, SM, SP, HB9, OE, OK, OZ, DL, ON, PA)

## Subregional VHF Contest March/Mars 2016

Court compte rendu du contest VHF subrégional des 5 et 6 mars 2016. J'ai été actif en single op. et seulement durant une partie du contest. Les conditions de propagation très "plates" et la présence de neige sur les reliefs n'ont pas

encouragé la pratique du portable.

Merci à tous ceux qui m'ont appelé !

Station habituelle : 12 él. DK7ZB et 550W

Short report of activity in the subregional VHF contest of March 5th and 6th, 2016. I have been active in single op. and only during a part of the contest. The flat propagation conditions and the snow still present on the highlands discouraged portable operations.

Thanks to everyone who called me !

Usual station : 12 el. DK7ZB and 550W

# IARU Region 1 VHF Contest 2015

Bref compte rendu du contest VHF IARU Region 1 des 5 et 6 septembre 2015. J'ai été actif en single op. durant toute la durée du contest, nuit comprise. Que celle-ci fût laborieuse (seulement 30 QSO), tant la propagation était mauvaise (30 QSO et 16000 points de moins qu'en 2014) et l'activité faible entre 2h et 6h du matin...

Merci à tous ceux qui m'ont appelé !

Station habituelle : 12 él. DK7ZB et 550W

Short report of activity in the IARU Region 1 VHF contest of September 5th and 6th, 2015. I have been active single op. the whole duration of the contest, night included. What a hard night it was (only 30 QSO), since the propagation was very poor (30 QSO and 16000 points less compared to 2014) and the activity low between 2h and 6h in the morning..

Thanks to everyone who called me !

Usual station : 12 el. DK7ZB and 550W

## Subregional VHF contest of July 2015

During the WE of July 4th and 5th, 2015, I have been partly taking part to the VHF subregional contest. Due to family and festive duties, I have only been active around 10 hours, mainly operating in DX S&P ("Searching & Pouncing") mode. Just few CQ sessions at the end. Flat conditions around, except to the North-East where the signals were above normal but relatively few activity. Pity that the OZ stations usually worked during the NAC ("Nordic Activity Contest") of Tuesday are not active at all during other contests. Surprised and pleased to easily work LA0BY (ODX 1125 km) and I5PVA/6. Very few activity in the South-East of France and less OK/OL's than usual.

# QSO's : 131

Points : 62039

# DXCC : 16 (I, G, GM, GW, EI, LA, SP, F, HB9, OE, OK, OZ, SM, DL, ON, PA)

# WWL : 72
