

My QTH

This post describes my geographical location. Take-off is of prime importance what radio communications matters, especially on the higher frequencies.

The following maps (made thanks to "[Radio Mobile](#)" by Roger, VE2DBE) are all centered

on my QTH :

View as from the 144 MHz antenna (17m above gr. level) towards the main cardinal

points :

Few pictures of my village (Horrues) in summer :

And in winter :
